

What is BLM?

The Bureau of Land Management administers 267 million acres of the Nation's public lands, most of which are located in the western United States and Alaska. These lands were once considered by many to be nothing more than wastelands, but today they are seen as lands with great diversity and richness.

In addition to recognizing the diversity offered by the environment, BLM is also committed to diversifying its workforce. Women and minorities are increasingly assuming important roles at all levels of the agency.

The Bureau is also looking to fill some very important positions in its IT department. The jobs contained in this brochure offer the successful candidates a unique opportunity to contribute to a state-of-the-art Information Resources Management directorate, as well as visit some of the most beautiful areas in our country.

As it always has, the Bureau and its people will rise to the challenge, demonstrating the innovative, creative thinking that has served the Nation and its people so well. For more information about BLM and what we do, visit our web site at www.blm.gov.

U.S. Department of the Interior
Bureau of Land Management

IT Professionals Needed at the Bureau of Land Management

System Development Manager

\$ 72,938—\$ 111,582

This is a supervisory position located in the System Coordination Office in Denver, Colorado. The office employs a staff of highly skilled individuals and is responsible for maintenance of the Bureau Architecture repositories, screening projects, training and mentoring Bureau project managers, and data management operations.

Announcement # EIT-00-09 or EIT-00-14

IT Investment Group Manager

\$ 71,954—\$ 110,028

This management position is located in the IRM Investment Group in Washington, D.C. The successful candidate will oversee the development of all IT funding strategies and budget, strategic and IT capital asset planning, IT investment and acquisition management, and the Bureau's National Configuration Management Board.

Announcement # EIT-00-07

Lead IT Architect

\$ 71,954—\$ 110,028

The incumbent will fill a management position in Washington, D.C., reporting to the CIO and will be the Bureau's lead for coordinating the development and implementation of its enterprise architecture.

Announcement # EIT-00-10

IT Services Group Manager

\$ 60,890—\$ 93,537

This is a supervisory position located in the IT Services Group in Washington, D.C. The incumbent will provide management oversight to contractors and coordinate all performance related issues, develop service level agreements for the headquarters office, and manage the office core baseline.

Announcement # WO-00-53

Bureau Records Administrator

\$ 71,954—\$ 93,537

This Washington, D.C. position is responsible for developing, implementing, and monitoring the Bureau's policies, processes, and procedures related to hard copy and electronic records.

Announcement # EIT-00-15

Program Analyst (multiple positions)

\$ 60,890—\$ 79,155

These positions are located in Washington D.C. Main functions include researching and analyzing agency-wide IT issues and developing and presenting alternatives and/or recommendations to senior management. Responsibilities will also involve the development of policies, procedures, and guidance for a medium to large size organization.

Announcement # EIT-00-11

Writer-Editor

\$ 51,204—\$ 66,564

Working for the CIO in Washington, D.C., the incumbent will ensure all technical and policy documents are prepared according to required formats, and will publish materials on initiatives, activities, and policy changes.

Announcement # EIT-00-12

Systems Engineer

\$ 61,722—\$ 80,237

This position is located in Denver, Colorado. The successful candidate will design test plans, interpret test results using statistical and mathematical expertise, and monitor simulation modeling and network design.

Announcement # BLM-HR-00-372

Computer Specialist

\$ 51,904—\$ 67,474

This Denver, Colorado-based data administrator will be responsible for data administration in a complex, multi-platform environment.

Announcement # BLM-HR-00-373
